PLANNING WORKSHEET

Learning task planner

Plan one activity with AI

Choose one task. Use the prompts to plan what learners will do and how you will check understanding.

Task and intended learning

Name the task and what learners should be able to explain or do

What thinking will the learner practise

Where could AI help and what will the learner do with it

What would show the learner understands

Use a new example or changed condition. State the permitted resources.

What would make you revise this plan
